## WORK EXPERIENCE

### DESIGNER | CONSULTANT

*Dynamo Technologies | April 2019 - Current*

Establish design team processes and implement across internal and client projects.

#### Projects & Roles

##### Supply Chain Portal, Burriss Logistics - UI/UX Designer

- Present and sell design ideas and recommendations to the client.
- Produce high fidelity prototypes for communication with the client, to aid in demos, development, and usability studies.
- Build and maintain design system to systemize the portals components.
- Distill complex requirements and constraints into comprehensive user flows.
- Participate in peer reviews and critiques to influence the director of the design deliverables.

##### Intranet, Dynamo Technologies - Lead UX Designer

- Redesign the intranet to align business and employee needs.
- Modernize the intranet to SharePoint best practices.
- Personalize the intranet experience to increase user engagement.
- Test and modify designs based off of usability reports.
- Produce high-quality user interfaces from concept to launch.

### DESIGN INTERN

*Silverberry Genomix | Feb 2018 - Jun 2018*

- Designed print marketing materials to create company awareness at expo's.
- Edit educational videos, as well as create visuals to be incorporated within them.

## PROJECT EXPERIENCE

### UI/UX DESIGNER

*Capacity 4 Health | Oct 2017*

Website Redesign - 3 week team project

- Produced high quality UX design solutions through wireframes, visual designs, flow diagrams, site maps, and prototypes.
